Medical Bag Making Machines

AMM-DS Series

Specification :

Model No.	AMM-82DS
Max. Parent Web Width	800 mm
Max. Parent Web Diameter	700 mm
Unwind Core Inner Diameter	3"
Max. Bag Width	50 ~ 800 mm
Max. Bag Length	80 ~ 500 mm
Max. Machine Speed	120 cuts / min.

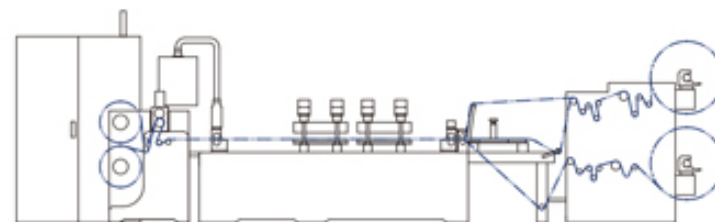

Features :

- Sealable plastic films / paper or tyvec.
- Horizontal type unwind stand with two sets of swing-out / Lift-up type air shaft which can load paper and plastic film and makes loading and unloading more convenient.
- Equipped with two sets of Automatic Tension Controller (diameter calculating type), provide constant and stable web tension control.
- Upgraded dancer-roller provides stable tension for films before entering the bag making section.

Optional Accessories

- Automatic stacking and pick-up system for bags.

AMM-RU Series

Specification :

Model No.	AMM-82RU
Max. Parent Web Width	800 mm
Max. Parent Web Diameter	700 mm
Unwind Core Inner Diameter	3"
Max. Machine Speed	30 M / min.

Features :

- Sealable plastic film / paper or tyvec.
- The unwind section is the same as the AMM-DS.
- AMM-RU can make two kinds of bag-tubes: side-seal-tube and Gusset side-seal-tube.
- Side sealed tube can made by 6-lanes operation within maximum parent-web width.
- Gusset side sealed tube can be made by 1-lane operation within maximum parent-web width.
- Equipped with automatic lift-up mechanism to lift up the upper sealing stands / bars to avoid overheating the material when the machine stops.
