PROFILE >>>

鑑群科技股份有限公司 - 創立於1979年，自成立以來不斷在橡塑機械領域中開發設計，至目前已通過多項專利申請，如：皮料裁型機之推料裝置、橡膠射出機止逆緩衝閥構造、吹瓶廣口模具之壓模構造，伺服沖型裁斷機...等多項專利。

本公司初期以製鞋機研發為主，本公司研發之自動送料沖型裁斷機，取代手動裁切，可大幅提昇產量、深受橡膠鞋業的支持。近年來由於高科技產業的發展，電腦、手機、液晶螢幕等光電高科技產業零組件更是台灣重要產業之一。本公司將多年裁切技術由傳統鞋業轉移到光電產業領域，研發更高精密度並適合無塵室等級全電式系統伺服式裁切機，已成為是本公司主力產業市場。

鑑群科技本著精益求精、研究創新之理念，不斷改良現有機型研發高速度、高精度、高效率之新機型來滿足不同客戶。鑑群一秉經營之用心與對產品保證之初衷，承諾以機器之品質保證及完善售後服務提供給所有的客戶，與客戶共同成長共創雙贏時局。

YICHEEN Technology Co., Ltd. formed up in 1979 has been unceasingly making efforts on design & development in the field of plastic/rubber machinery since the date of establishment, and has successfully acquired a lot of patent applications, for example: feed-in device of leather cutting/shaping machine, non-slam cushion valve structure of rubber injector, die frame of wide-neck blowing mold, and servo type die cutting machine, etc.

At the initial phase, as our company was mainly based on R&D of shoe-making, the auto-feed die cutting machine we researched and developed is capable of replacing hand cutting that benefits to largely enhance capacity and therefore is profoundly favorable within rubber-shoe making industry. In the recent years, due to the fact of Hi-Tech industry boom, the components applied in the photoelectrical Hi-Tech industry for items like computer, cell phone and LCD, etc are becoming one of the most important industries in Taiwan. As being the case, we transferred years of specialized experiences in cutting technology from the originally traditional shoe-making industry to photoelectrical industry and even R&D a high-precision full-electrical system servo type cutting machine applicable to use in clean room that has risen to be our main-power market in the industry.

YICHEEN Technology holds a principle of constant improvement and creative research to continuously improve the existing models in purpose of developing high-speed and high-performance advanced machinery to content different customers' demands. Remaining with an original intention of diligently handling business and providing qualified product, YICHEEN Technology promises to offer customer with remarkably guaranteed quality goods and perfect after-sale services aimed at growing with customer in order to commonly attain a win-win posture.
