

Plastic Wood Composite Profile Extruding Machine

Can Be Stick

Can Be Plain

Can Be Cut By a Saw

Can Be Nailed

Fire-Retardant

Water Resistant

**Professional PVC Machinery
Manufacturer Planning &
Whole- Plant Delivery**

1. PVC Profile Extrusion
2. PVC Plastic Pellet M/C
3. PVC Rigid & Soft Pipes M/C
4. Waste Plastic Recycling M/C
5. Plastic Wood Composite Profile Extruding Machine

New Revolution Wood Composite Material

Attributes of Wood Composite:

- Recyclable
- Fire Retardant
- Water Resistant
- Insect Resistant
- Maintenance Free
- High Impact Strength
- No Finishing Required
- Resistance to Weathering
- Free From Natural Defects
- Close Resemblance to Natural Wood

Applications:

- Flooring
- Skirtings
- Wall panels
- Picture frames
- Curtain pole set
- Door and window frames

Plastic Machine Specialized in Designing / Manufacturing / Whole Plant Equipment

Water-Cooled Type P.V.C. Pelletizer

P.V.C. Plastic Pellet Making Machine

Waste Plastic Recycling Making Machine

P.V.C. Rigid Pipe Making Machine

P.V.C. Reinforced Making Machine
